```
Firmware/Software Version AEP 1.4.4
 Timestamp = 11-02-2017
```
----------------------------------------------------
```

(a) Features Added/Removed/Modified since v1.4.4-dev1:
* The MTCAP-AEP image removes the LoRa network server if an upgrade is performed from an mLinux MTCAP-x-00xL to run AEP firmware. The packet forwarder is maintained.

(b) Bugs fixed since v1.4.4-dev1:
* Fixed Spira IN:2764 Partial config upgrade fails if changing lora configuration

* Fixed Spira IN:2748 "NaN undefined" displayed for "Avail" and "Buff/Cache" in Statistics->System Information

(c) Test/Debug Features Added/Removed/Modified since v1.4.4-dev1:
* FAI script for production does not execute properly and needs improvement

(d) Known issues in this version:
* Spira IN:2631 Cell LED performs different from MTCDT

* Spira IN:2761 OpenVPN Tunnel is not displayed in the list until after Save and Restart Incident

* Spira IN:2762 Saved Networks missing under Setup Incident

* Spira IN:2791 Installed Apps are deleted after applying User Defaults via reset button Incident

* Spira IN:2743 Get "Lora Statistics are not available. Try refreshing
the page" message.

* Spira IN:2763 Status, Sent, Received are blank in OpenVPN Statistics
for Custom OpenVPN
Server and Client with shared key.

* Spira IN:2792 Ethernet/Cellular Statistics not entirely cleared when
history is deleted.

Firmware/Software Version AEP Beta 1.4.4-dev1
 Timestamp = 10-11-2017

(a) Features Added/Removed/Modified since MTCDT V1.4.3:
* Added support for LNA3 radio

* LoRa node-red blocks are updated to support the MTCAP LoRa Cards.

* Remove LNS package in case the device product id is MTCAP***L

* Updated global_conf.json for MTCAP US915

* Disable LoRa packet forwarding logging which ate tmpfs partition

* Flash fix for umountfs

(b) Bugs fixed since [PREVIOUS VERSION]:
* Spira IN:2686 Verizon PPP link goes up and down

* Spira IN:2689 No Radio Model - Internal Server Error when attempting to
log in after Save and Restart

* Spira IN:2690 Picocell - Helps do not work for OpenVPN Tunnels

* Spira IN:2687 Remove Node-Red nodes for non-applicable MTAC cards

(c) Test/Debug Features Added/Removed/Modified since [PREVIOUS VERSION]:
* None

(d) Known issues in this version:
* Spira IN:2688 MTCAP stops responding to web browser and pings
  Cannot reproduce
