

- Single antenna mounting shown for clarity.
- Every antenna that would be remote mounted would be the same.
- Times LMR cable or equal.
- Single point Grounding must be followed.
- Most expensive and time consuming installation
- Only advantage is if the IP-67 Gateway fails.

- IP-67 Gateway outdoor mounting shown.
- Shielded outdoor Ethernet cable pre-made.
- Single point grounding must be followed.
- Least expensive and shortest time installation
- Same RF performance as remoted antenna installation
