Fax: 763-785-9874

MultiTech Connection Manager 2.1.0.3

Overview

This document provides a brief summary of changes implemented in Connection Manager 2.1.0.3

MultiTech Connection Manager supports USB and serial modems. If using a serial modem, Connection Manager requires a standard 33600 bps modem be installed in the Windows operating system.

Radio Modem Driver Installation and Uninstallation

Connection Manager 2.1.0.3 installation wizard installs modem drivers during installation and uninstalls the drivers during uninstallation process. The modem drivers will be Telit, Quectel or Sequans, depending on the cellular radio model being installed.

New Radio Support

Support for the following radio modems was added:

- XXX-L6G1
- XXX-MNG2
- XXX-MNK1

Previous Radio Support

The following radio modems were already supported:

- XXX-C2
